The Basic Framing Workshop will cover the following:

- Hands on instruction on how to use a framers fine-cut miter saw, how to use a corner vice with clamps and how to measure moulding for a frame in order to create accurate cuts for a corner joint.
- An overview of the cost for purchasing basic framing tools and where to purchase them.
- Everyone attending the workshop will get a chance to handle the miter saw and corner vice to create one corner joint towards a frame.
- A list of any other essential material for building frames:  
Titebond framers glue, finishing nails, etc.
- Learn how to order moulding with the right measurements for your artwork.
- LOOK FOR WHOLESALE FRAME MOULDING SUPPLIERS ONLINE.

I will take the first 12 people (6 for Sat. June 17<sup>th</sup> and 6 for Sat. June 24<sup>th</sup>) to fill out this registration and **send a check for \$25. payable to Aida Birritteri**. Mail your check to my home address with this registration form.
