Business Bits

Why have a website?

They are ubiquitous

Virtually all painters now have websites. It's now 'normal' for professional artists to have one.

They help get your name known

They help market your artwork
BUT you still **MUST** be active in marketing yourself and your art.

They help sell your art

MISSION STATEMENT

Forming an organization, which would bring amateur and professional artists together in an effort to increase their skills through workshops and exhibits, and at the same time, to increase community awareness of the fine arts.

President's Message

As our club's leader, I would be remiss in not acknowledging the global call for police accountability and what is happening in our community. We are all challenged with making the world a better place.

The artist who designed this poster, Arnold Skolnick, did not realize that he was creating an iconic graphic that would become a part of our collective memory and mark a turning point in our culture.

Inspired by the collages of Henri Matisse, Skolnick designed *Three Days of Peace and Music* using impactful colors, cutting and assembling simple paper shapes.

The dove and the guitar is the emblem of a generation that changed the world, when 50 years ago, they assembled for the Woodstock Music Festival to protest against oppression.

There was only one rule; LOVE each other. The most important lesson learned was that when we come together in PEACE anything is possible.

Denise McDaniel

President
